

Quality Policy

For Navigent Group and subsidiaries

Through competence and professionalism, we will create customized services, products and solutions for energy transition and climate improvement that meet the customer's needs and expectations. We deliver on time, with the right quality and with good profitability to build long-term relationships with customers and suppliers.

The business management shall be reflected in a living management system, feedback and utilisation of views from Navigent Group's stakeholders is a natural part of the system and a part of the process for increased customer satisfaction.

For Navigent Group, a living management system means that it is constantly developed and improved and that the system, our procedures and deliveries are developed in accordance with current requirements and the best available technology in the industry.
